CORKOCO
ACOUSTIC FALSE CEILING

ADVANTAGES

1. Excellent thermo-acoustic system performance
2. Excellent mechanical strength
3. Excellent system inertia
4. Dimensional stability of the material
5. High durability without loss of features
6. Healthier natural product
7. Comfort with healthy insulation
8. Excellent breathability capacity
9. Allows energy savings
10. Long term effectiveness

100% NATURAL CHOICE
EXPANDED INSULATION
CORKBOARD IS A SUSTAINABLE MATERIAL FOR A SUSTAINABLE INSULATION
CORKOCO
ACOUSTIC FALSE CEILING

SOLUTION DESCRIPTION
Sound absorption and sound correction of false ceilings, with Corkoco, Expanded Insulation Cork and e Coco fibers, above ceiling system.

TECHNICAL FEATURES
Excellent acoustic performance
Airborne Sound Insulation Index: Rw = 58 dB
Thermal conductivity: \( \lambda = 0,043 \) a 0,045 W/m°C
Humidity Resistant - wide diffusion

ENVIRONMENTAL FEATURES
- RECOVERY AND UTILIZATION OF WASTE COCONUT SHELL
- ODORLESS
- ROT RESISTANT
- MOLD RESISTANT

PRODUCT DIMENSIONS
Corkoco 1+1 | cork 20/coco 20
Corkoco 2A + 1C | cork 10/coco 20/cork 10
Corkoco 2C+ 1A | coco 10/cork 20/ coco 10
Dimensions: 1.000 x 500 x 40 mm

RECOMMENDATIONS FOR APPLICATION
Apply Corkoco boards over the false ceiling system leaving an aprox 350 mm air-cavity
